

CARE BY AIR

FLIGHTS WORLDWIDE ARE

34%

EMPTY.

THAT'S 1.5 MILLION TONS OF EMPTY CARGO SPACE.

FILL JUST 0.0003%

OF THE EMPTY SPACE WITH RICE AND YOU CAN MAKE

DINNER FOR

5 MILLION HUNGRY PEOPLE.

WHAT IF YOU OFFER

YOUR SERVICES

TO HUMANITARIAN ORGANISATIONS

AT COST?

Just imagine the impact we can create by providing not just cargo space, but fuel, handling, warehousing, haulage and other services at cost.

YOU WON'T

BELIEVE

THE RESULTS.

Offering your services at cost means your fixed costs per mile go down and profitability goes up. Most importantly, **lives are saved.**

CARE BY AIR

MAKE ROOM IN YOUR HEART

AND SPACE IN YOUR HOLD.

By offering your services at cost to charities, you can fill the hearts of millions with hope. At the same time, you reduce your cost per mile for commercially paid cargo. The bottom line: increased margins and undoubtedly the most rewarding operation you will ever do.

IT'S NOT CHARITY.

IT'S A SUSTAINABLE BUSINESS MODEL.

THE "AT COST" APPROACH IS ABOUT DOING A GOOD DEED, AND GOOD BUSINESS.

SIGN UP NOW AND
HELP YOUR BUSINESS,
HELP THE WORLD.
